

Orchestra from Everywhere

An orchestra of musicians from around the world who have chosen to make Britain their home. They come from Syria, Iran, Hongkong, Palestine, Ukraine and India and many are refugees settled here.

The orchestra plays traditional music from their own cultures as well as new music that they have developed together.

The Orchestra from Everywhere has been developed by the national cross-cultural music company ShivaNova. They are a National Portfolio organisation of the Arts Council.

This is an opportunity to reach culturally diverse communities and audiences across the age spectrum in your area providing a rich concert of music from multiple and diverse groups including refugee communities.
